Graduation(ongoing):

3rd Year
Bachelors of Computer Application, Silver Oak university, Ahmedabad
Semester-05 | **CGPA: 9.18**

Skills

Technical: NextJS, Tailwind CSS, ReactJS, MongoDB, HTML, CSS, JavaScript, Python, C++, SQL, Git & GitHub

Languages: Gujarati, Hindi, English

Experience

Nexus Publication (October, 2024)

Assisted in enhancing the responsiveness of an existing website using Tailwind CSS.
- Ensured the site was fully responsive across devices, improving its usability
- Gained hands-on experience in responsive design principles and practical application of Tailwind CSS.

Paper Generator for Nexus Publication:

Developed a backend script using Node.js to automate the creation of question papers by fetching data from an API.
- Fetched and processed question data from APIs to dynamically generate question papers.
- Included formatted headers and structured layout for clarity and consistency.

Projects

SOUNotes

A comprehensive study material web app designed for BCA students at Silver Oak University, built using **NextJs**, **Tailwind CSS**, and **Rehype**/**Remark** libraries.
- Allows students to view notes, download as PDFs, and access the academic calendar.
- Progressive Web App (**PWA**) functionality for installing as web app
- Selected for **Project Fair 2024**.
- Used by more than **90%** BCA students of Silver Oak University

Project Vault

- A website made using **ReactJS** and **Tailwind CSS** which contains all of my projects that I made while learning various technologies.

GitFinder

- Made using **NodeJS**, **Tailwind CSS**, **GitHub API**. It provides GitHub account information based on a given username.

ReactFlix

- **ReactFlix** is a React.js app that uses the **TMDB API** to display trending movies, search results, and detailed movie info with a clean and modern UI.
